1. Introduction and background

- 1.1 The Regulation of Care (Jersey) Law 2014 was introduced to establish an independent Health and Social Care Commission to regulate health and social care provision in the island.
- 1.2 In 2017 the Jersey Care Commission was appointed to:
- provide the people of Jersey with independent assurance about the quality, safety and effectiveness of their health and social care services
 - promote and support best practice in the delivery of health and social care by setting high standards and challenging poor performance
 - work with service users and their families and carers to improve their experience of health and social care and achieve better outcomes.
- 1.3 The Commission adopts Right-touch regulation principles identified by the Better Regulation Executive and the Professional Standards Authority of:
- **Proportionality:** regulators should only intervene when necessary. Remedies should be appropriate to the risk posed, and costs identified and minimised
 - **Consistency:** rules and standards must be joined up and implemented fairly
 - **Targeting:** regulation should be focused on the problem and minimise side effects
 - **Transparency:** regulators should be open, and keep regulations simple and user friendly
 - **Accountability:** regulators must be able to justify decisions and be subject to public scrutiny
 - **Agility:** regulation must look forward and be able to adapt to anticipated change.
- 1.4 On 1 January 2019 functions previously undertaken by the Minister for Health and Community Services (HCS) were transferred to the Jersey Care Commission. These functions include the registration of Dental Care Professionals under the Dentistry (Jersey) Law 2015
