

Guidance for Registering as a Dental Care Professional

Registration is governed by the Dentistry (Jersey) Law 2015
(<https://www.jerseylaw.je/laws/enacted/Pages/L-17-2015.aspx>)

The Law regulates the use of the following professional titles:

Clinical Dental	Technician Dental Technician
Dental Hygienist	Dental Therapist
Dental Nurse	Orthodontic Therapist

To apply to use one or more of the titles, please complete and sign the application form ([link](#)) and send it scanned to notifications@carecommission.je or by mail, together with:

- a copy of the qualification that entitles you to use the professional title that you are applying to use
- a copy of photographic ID (passport or driving licence)
- a copy of proof of your entry on the GDC register

The Law states that every registration under the law expires on the next following 13 December, and so the registration must be renewed at the end of every year. We will contact you to explain the process.

We advise that Dental Nurses who were working in Jersey on 23 February 2016 are currently exempt from the provisions of the Law until 22 February 2021. Dental Nurses who are employed after 23 February 2016 are not exempt by the Law and must be registered before they take employment.

We will invoice you with the £55.00 fee on receipt of your application.
